Experience

Montran
Design Consultant
Apr 2026 – Present
Contract

Developing a unified design system for the redesign of Montran's global and regional sites, establishing reusable components and standards to scale consistent UI across 90+ countries.

AnyDay
Senior Product Designer
Apr 2022 – Apr 2026
Full time

Designed and shipped the employer portal and member app for AnyDay, a restaurant tip payout and wallet platform, later building in code. Helped migrate 100k members and 3,500 restaurants to the new product.

- Cut restaurant onboarding from 7 to 3 days with a self-serve setup.
- Designed AI support flows, which resolved 70% of inquiries as CSAT rose from 50% to 87.7%.
- Helped lift the app's rating from 2.4 to 4.6 stars.

Batch
Product Designer
Jan 2020 – June 2020
Full time

Created the foundational brand, website, and user experience for Batch, a next-generation applicant tracking system, taking it from 0→1.

Humi
Product Designer
Sept 2018 – Jan 2020
Full time

Joined as a design intern and became Humi's first product designer, leading a full product redesign that connected HR, payroll, and benefits in one platform for Canadian businesses.

- Shipped V2 to all customers as Humi grew from 1,400 to 4,000+ businesses.
